Upgrade Instructions

Please follow the steps given below in sequence and execute instructions in the KB articles to complete the update:

1. [Update to Latest MachPanel](#)
2. [Update to Latest MachPanel Remote Server](#)

New Features/Improvements

- **Lync 2010 fully supported by MachPanel.**
- Verified and added support for "**SmarterStats 7**" in HostMatic Module.
- Added **Chinese language pack** to translate MachPanel into Chinese.
- **Export Customer List** - First Name, Last Name, Company and Email Address fields.
- **Disable Auto Processing** from Service Queue.
- Exchange SP2 upgrade handling – handle automatic update from SP1 to SP2.
- MachPanel Customer Control Center (CCC) redirection redone on basis of query string instead of Session values.
- Modifications in MachPanel Taxation sub-module of Billing module (Tax Zone 2 and Compound Tax implementation).
- Option to give Full Access Rights and Send As permissions for resource mailbox in control panel.

MachPanel 4.3 BUILD 10 Release Notes (February 27, 2012)

- Input Email address while adding AD user.
- Option to specify Public Folder server details while adding server group.
- Add Company Name in Reseller Control Panel Customer's Manager.
- Automation of Remote Servers Update according to version of Control Server.

Resolved Issues

- **MachPanel (General):**
 - o Add-on should get canceled with main subscription
 - o PayJunction bug of charging with expired Credit Card
 - o Change name of 'Misc Product' product type from 'Reseller Hosting' to 'Misc Product'
- **HostMatic:**
 - o Service management from customer end give error for Hostmatic (Hosting module).
- **CRM:**
 - o Customer not able to disable/enable CRM user
 - o CRM Multiple domain (UPN Suffix Issue) fixed
 - o When CRM user password is changed, wrong email is sent due to email template issue.
- **SharePoint:**
 - o SharePoint disappears from store front if Wireless module is disabled from "Built-in Modules".
- **Exchange 2007/2010:** Ex2010 SP2 timeout problems in Organization creation.
 - o Usage report not showing properly
 - o Resources not set properly for organizations that are imported into MachPanel.
 - o Mailbox Disable feature fixed
 - o Issue with mail-contacts import in MachPanel
 - o Issue with download outlook profile
 - o Details should be hidden for resource mailboxes
 - o Resource mailboxes shouldn't offer the possibility to download a profile-file, since these mailboxes can't be set up directly in Outlook.
- **Store Front:**
 - o Built in modules show in shopping cart at reseller end even if they are disabled.

MachPanel 4.3 BUILD 10 Release Notes (February 27, 2012)

Known Issue

- MachPanel provisioning service may crash on certain remote servers. Please contact us at **support@machsol.com** if you face such issue.
