## **Steps to Resolve**

It occurs when system settings locked the files that you have downloaded to apply the fix. To resolve this issue you will have to unlock the files in MachPanel directory please follow the steps below:

- Download the Streams.exe from http://technet.microsoft.com/en-us/sysinternals/bb897440.aspx
- Place the Streams.exe inside MachPanel installation directory which is usually C:\Program Files\MachSol\MachPanel Control Server

- Open windows command prompt
- Change directory to the folder where you have copied Streams.exe, you can use command cd C:\Program Files\MachSol\"MachPanel Control Server"
- Execute this command **streams.exe -s -d \*.\***
- Perform IISRESET.
- Check your issue again.
