

# Update Problem - The Process Cannot Access The File 'C:\Program Files\MachSol, Inc\MachPanel\bin\MachSol.MachPanel.ConfigurationStudio.exe' Because It Is Being Used By

## Summary

When updating MachPanel, you get following error in Configuration Studio log

ERROR: The process cannot access the file 'C:\Program Files\MachSol, Inc\MachPanel\bin\MachSol.MachPanel.ConfigurationStudio.exe' because it is being used by another process.

## Applies To

MachPanel all versions

## Solution

This error occurs because of insufficient permission on the target directory. To fix this error, please perform the following steps.

- Go to C:\Program Files\
- Right Click on folder where MachPanel files are installed, typically **MachSol, Inc** and select **Properties**.
- **Un-Check** the check box that says **Read-only** and click **Apply**.
- Select **Apply changes to this folder, subfolders and files**.
- Click **OK**.

Retry the update process.
