

Enable/Disable MachPanel Billing System/Service

Summary

This article explains procedure to Enable/Disable MachPanel Billing system.

Applies To

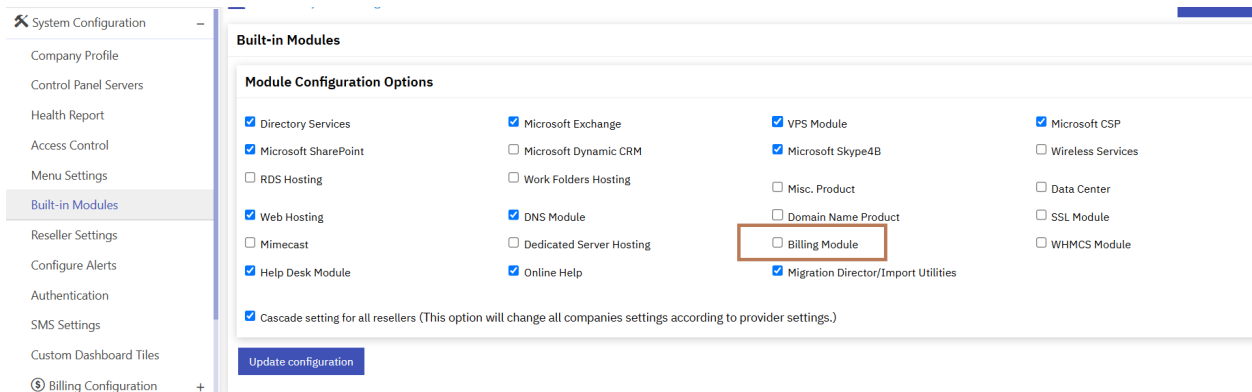

MachPanel all versions

Procedure

If you already have a custom billing service in place, you can use MachPanel and all its extensions with the billing system disabled and just use the MachPanel management.

Simply Navigate to: **Home » System Configuration » Built-in Modules**

Then simply uncheck the below checkbox and click Update Configuration, it will completely disabled the MachPanel Billing Module for you.
