IMPORTANT- Update to MachPanel 4.1 Build 24: The update process followed in above knowledge base articles will automatically upgrade to latest build.

New Features/Improvements

- Improvement: Rich Support for Dutch Language Translation - Now includes even more sentences. Several modifications are carried out to Client Dashboards & navigation regarding Dutch Language Translation.

Resolved Issues

- Bug fixed: BlackBerry activations problem - After provisioning an account of BES v.5 from MachPanel, it is not activated on user's BlackBerry devices.

MachPanel Build v4.1.24 Release Notes (July 7, 2010)

- Bug fixed: Re Migration Problem for Exchange as security group disappears from Address Lists.
- Bug fixed: Language Translation issue - Translated word is exceeding the button size.
- Bug fixed: SetOALPermissions, SetALPermissions, SetGALPermissions exceptions were not properly handled for Exchange 2010.
- Bug fixed: When a customer tries to change the password on one of its provisioned Exchange mailboxes, a blank screen is encountered.
- Bug fixed: Setting up users by downloading the "Download profile" script for MachPanel causes problems.
- Bug fixed: CRM Security Role Issue - It works fine if CRM server is installed with English as a base Language. But if CRM server is installed other than English, MachPanel is unable to assign security Role to newly added user.
- Bug fixed: When two or more users are added to protect a folder. Only the last one created will be allowed to remove and not the previous ones.

Known Issue

There are no known issues for this build.
