[1. Update to Latest MachPanel](#)

[2. Update to Latest MachPanel Remote Server](#)

**IMPORTANT- Update to MachPanel 4.1 Build 26:** The update process followed in above knowledge base articles will automatically upgrade to latest build.

## New Features/Improvements

- Improvement: Configurable header and footer in order form.
- Improvement: Dutch translation correction alongside support for phrases "Is Logged in as Staff", "Is Logged in as Provider", "Is Logged in as Reseller". Additionally, Back and Help link button text is also translated to respective Dutch text.
- Improvement: Authoritative, Internal and External Relay domain handling.
- Improvement: Exchange Organization's security group has been given Read permissions on respective organization unit.
- New feature: CRM customization using XML file.

## MachPanel Build v4.1.26 Release Notes (August 10, 2010)

- New feature: Added a button for synching distribution lists and mailbox quota with back end.
- New feature: Portuguese Language integration support.

### **Resolved Issues**

- Bug fixed: When MachPanel is running with SSL, the logo URL does not get changed to https, it remains as http and thus causes a security message dialog box on every click.
- Bug fixed: Get Send-as, Full access settings implementation in Exchnage2010.
- Bug fixed: Kilo Byte (KB) unit has been changed to Mega Byte (MB) on defining Exchange Service plans for Exchange 2007 & 2010.
- Bug fixed: Distribution list display name allows special characters to be entered.
- Bug fixed: CustomAttribute15 set to primary domain name of mailbox when activating Blackberry service.

### **Known Issue**

There are no known issues for this build.
