Exchange Additonal (User\Linked\Shared\Resource) Mailbox Add-on Creation

This article describes in detail about creation of Exchange Additional User\Linked, Shared and Resource (room &equipment) Mailbox Add-on via MachPanel
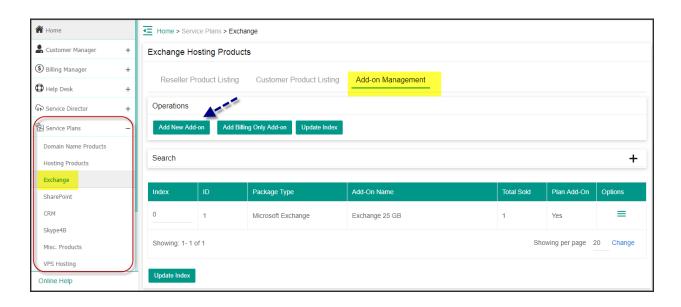

Applies to:

MachPanel All Versions

Scenario:

The resource and shared mailbox can be created and sold via add-ons. Assume that exchange hosting product has been made in such a way that number of mailboxes (user\linked, shared, resource) are limited. If the customer having this subscriptions consumes all the mailboxes and wants to purchase more mailboxes only. This can be done by selling him Exchange Mailbox Additional Mailbox Add-on.
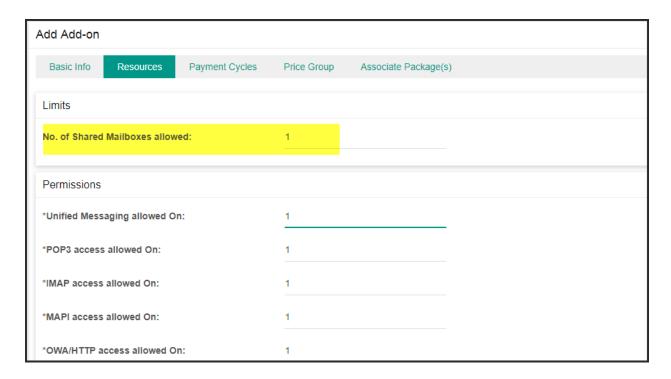

Procedure:

1) Go to **Service Plan** > **Exchange** > **Add-on Management** and click on **Add New Add-on**

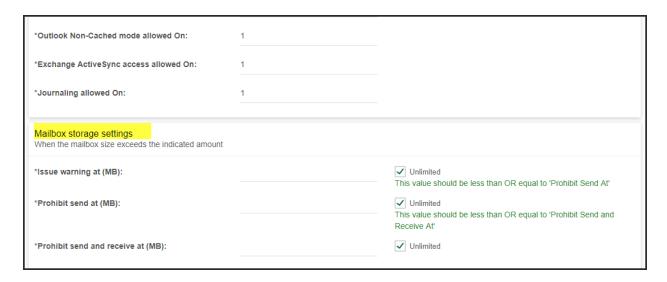

2) Type the name for the addon (name it in such a way that you can distinguish what package sells when you are selling it. Like for mailbox addon, name it as 'Extra Mailbox')

Exchange Additonal (User\Linked\Shared\Resource) Mailbox Add-on Creation

3) Follow the snapshots below where a mailbox is created for a package with limited mailboxes having unlimited storage:

Add Add-on

Basic Info	Resources	Payment Cycles	Price Group	Associate Package(s)

Limits

No. of Shared Mailboxes allowed:	1

Permissions

*Unified Messaging allowed On:	1
*POP3 access allowed On:	1
*IMAP access allowed On:	1
*MAPI access allowed On:	1
*OWA/HTTP access allowed On:	1

'1' is for enable and '0' is for disable. You can enter either as package permissions will override these. Here i want to have the mailbox to have unlimited storage.

*Outlook Non-Cached mode allowed On:	1
*Exchange ActiveSync access allowed On:	1
*Journaling allowed On:	1

Mailbox storage settings
When the mailbox size exceeds the indicated amount

*Maximum recipients per email:		☑ Unlimited

Cancel   Previous   Next

We have put '1' here, don't worry as folder storage settings are applied of the package.

Exchange Additonal (User\Linked\Shared\Resource) Mailbox Add-on Creation

4) Go to next steps, mention payment cycle, currency and price and then save it

5) Now go to 'subscribe service' for the customer to whom you want to sell the Add-on, select currency and then click on 'Add-on':

6) Select Microsoft Exchange from the PackageType, select the addon and set the number of addons. Complete the rest of the form and move to shopping cart.

7) Finish the setup and 'run' the add-on from 'Service Queue'

8) Now you can add mailbox from the 'service management' of the exchange account to whom addon has been sold.
