 Go to Home > Service Director > Exchange Hosting > Exchange Accounts

- Click **Manage** in front of the organization under which you want to import public folders.
- Click on **Enable migration** tab as shown in below snapshot.

0	🛛 Exchange Hosting 📃 🗕	Home > Service Director > Exchange Hosting > Exchange Accounts > Manage Service						
	Server Groups	Manage - #7 TheHost International						
	Accounts							
	Products	General Settings Mail Domains MailBoxes Mail Contacts [
	SPLA Report	Disclaimer Group Actions Retention Settings SPAM Filters						
	Usage Report							
	Group Actions	Operations						
	Exchange Databases	<u> </u>						
	Public Folder Mailbox	Enable Migration Sync data from backend						
	Mailbox Templates							
	Mailbox Manager	General						

• After clicking on **Enable migration** tab go to the Public Folders tab. Here you will see the **Import** button under **Public Folders** tab as shown below:

Manage - #7 TheHost International							
General Settir Disclaimer	ngs Mail Domai Group Actions	ins MailBoxes Retention Settings	Mail Contacts SPAM Filters	Distribution List Application Imp	Public Folders ersonation	Wireless Service	
Operations Add Public Folder	Import						

• You will see all the public folders under '\', you need to select the Parent Public Folder e.g. \TheHost.com in this example

Manage - #7 TheHost International							
General Settings Mail Domain Disclaimer Group Actions	Retention Settings	Mail Contacts SPAM Filtors	Distribution List Application Impo	Public Folders	Wireless Service		
Import							
	ATTire tost com tost						

• Click on **Save** to complete the public folder import process. You will see the below message on completion.

Importing Public Folder: \TheHost.com\HostFeedback »» Operation was successful. Importing Public Folder: \TheHost.com\HostOffice »» Operation was successful. Importing Public Folder: \TheHost.com\TheHostDoc

• That will complete the public folder import process, all sub Public folders will get imported automatically.

Manage - #7 TheHost International						
General Settings Mail Domains MailBoxes Mail Contacts Distribution List P	ublic Folders Wireles	s Service				
Disclaimer Group Actions Retention Settings SPAM Filters Application Impersor	nation					
Operations						
Add Public Folder Import						
Public folder name	Mail Enable Folder	Options				
TheHost.com\Data	Yes	Delete				
TheHost.com\HostFeedback	No	Delete				
TheHost.com\HostOffice	No	Delete				
TheHost.com\TheHostDoc	No	Delete				

• Revert the value i.e. the value of "PFOrgParentFolder" to 'domain' again.
