MachPanel Build v4.5.15 Release Notes (December 31, 2012)

Known Issues

1. Problems in operating MachPanel Control Panel over Internet Explorer (IE) 10.
2. Email templates will get overwritten during the update process. So, All email templates that are modified must be backed up before update and then restored after the update is completed.
3. Logo will need to be re-adjusted due to new login screen implementation.
4. web.config file will be updated during the upgrade process, so any additional settings in IIS manually done will be lost. Please review IIS settings after upgrade.
5. Exchange Server Group optional settings are needed for email template to work properly. You can find SOP for specifying optional fields in Exchange Server Group at KB article. http://kb.machsol.com/Knowledgebase/Article/50336
