

# Adding and Managing Distribution Lists

## Summary

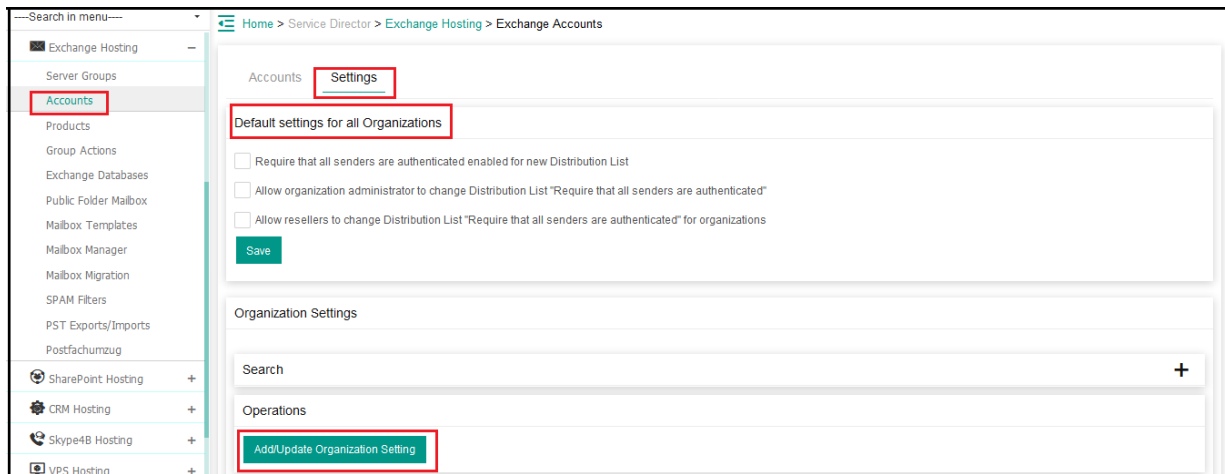

This article provides a summary on adding and management of distribution lists in MachPanel.

## Applies To

This article applies to MachPanel all versions.

## Settings for Distribution List

You can set setting for **"Require that all senders are authenticated"** by navigating **Service Director > Exchange Hosting > Accounts > Settings**. A provider can check this setting for all organization and also enforce to any organization.

Click on **Add/update Organization Setting** to enforce setting to single or multiple organization and select desire settings.

## Adding and Managing Distribution Lists

### Creation of Distribution List

To add a distribution list navigate to the following path: **Home » Service Director » Exchange Hosting » Exchange Accounts**. Click on the **Service Management** link and then select **Distribution List** tab.

Managed By:

Type to search

Selectable

- Lucas Hayden - L.hayden@cloudhost.com (MailBox)
- Lyle Hal - Lyle.Hal@cloudhost.com (MailBox)
- Staff - staff@cloudhost.com (Group)

Selected \*

Group Members:

Type to search

Selectable

- Kim Hilton - K.Hilton@yahoo.com (Contact)
- Lucas Hayden - L.hayden@cloudhost.com (Mailbox)
- Lyle Hal - Lyle.Hal@cloudhost.com (Mailbox)
- Staff - staff@cloudhost.com (Group)

Selected

Save Cancel

Click on **Add Bulk Distribution List** button when done. In order to Bulk Delete Distribution lists, you have to select DL's .

Add Bulk Distribution List [Go Back to Listing](#)

Use this interface to create multiple exchange distribution lists. Provide a comma separated list (.csv) of distribution list(s) that you wish to setup for the selected organization.

Primary email: contoso.com

Require that all senders are authenticated:

\*CSV file to import: [Select File](#)

[Sample CSV file](#)

Note: Members contain semi colon (;) separated email addresses. For Mailbox it should be primary email of mailbox, for contact it should be contact external email, for DL it should be DL primary email.

[Add Bulk Distribution List](#) [Cancel](#)

## Adding and Managing Distribution Lists

- **Primary Email:** Enter primary email address.
- **CSV file to import:** Browse to select a csv file.

Click on **Add Bulk Distribution List** button when done.

### Adding Member to Distribution List:

Distribution list members receives the email sent to the distribution list. They can also post email message to the list.

To add a distribution list member, select the distribution list for which you wish to add a new member. Click on the **List Members** tab and select the list member from **Mailbox** drop-down list. Click the **Add** button.

The screenshot shows the 'Distribution List Settings' page for 'staff@cloudhost.com'. The 'List Members' tab is selected. Below the search bar, there is a table with the following data:

Display name <b>↑</b>	Email Address <b>↑</b>	Options
Kim Hilton ( Contact )	K.Hilton@yahoo.com	<a href="#">Remove</a>
Lucas Hayden ( Mailbox )	L.hayden@cloudhost.com	<a href="#">Remove</a>
Lyle Hal ( Mailbox )	Lyle.Hal@cloudhost.com	<a href="#">Remove</a>

### Adding New Mail Address:

A distribution list can have multiple email addresses or aliases. This allows the distribution list to receive messages that are addressed to any one of these e-mail addresses.

To add a new email address to a distribution list, click on the distribution list name for which you wish to add email address. Select **Email Address** tab, enter the name of new mail address in **Email Address** box and click on **Add** button.

Two types of Email addresses are supported

## Adding and Managing Distribution Lists

1. SMTP
2. Custom

**Add Email Address**

Type:  SMTP  Custom

\*Custom address type: \_\_\_\_\_

\*Email Address : \_\_\_\_\_

[Add Email Address](#)

The address can be EX, X.50, X.400, MSMail, CcMail, Lotus Notes, NovellGroupWise, EUM Proxy address, and free text.

### Setting Mail Restrictions:

You may define *Accept Message From* and *Restrict Message From* settings for the distribution list.

To set restriction to a distribution list, click on the distribution list name for which you wish to set restrictions and select **Advanced** tab.

The advanced interface displays following:

**Accept Message From:** There are two options to select from:

- **All senders:** If selected, message will be accepted from any sender.
- **Only senders in the following list:** If you selected, the message will be accepted only from the addresses selected from the list.

**Reject Message From:** There are two options to select from:

## Adding and Managing Distribution Lists

- **No senders:** If selected, message will never be rejected.
- **Senders in the following list:** If you selected, the message will be rejected if coming from the addresses selected from the list.

## Adding and Managing Distribution Lists

### Grant Send As and Send On behalf:

To grant **Send As** and **Send On Behalf** to a distribution list member, click on **Send As** tab and select the list member from **Mailbox** drop-down list. Click the **Grant Send As** button. Similarly, lick on **Send On Behalf** tab and select the list member from **Mailbox** drop-down list. Click the **Save** button.

The screenshot shows the 'Send On Behalf' tab selected in the 'Distribution List Settings for staff@cloudhost.com' interface. The 'Send On Behalf' section is active, and the 'Send As' tab is also visible. The 'Send On Behalf' section includes a search bar labeled 'Type to search' and two dropdown menus: 'Selectable' and 'Selected'. The 'Selectable' dropdown contains two entries: 'Lucas Hayden - L.hayden@cloudhost.com (Mailbox)' and 'Lyle Hal - Lyle.Hal@cloudhost.com (Mailbox)'. There are four green arrow buttons (left, right, up, down) between the two dropdowns. A 'Save' button is located at the bottom left of the form.

### Message Approval:

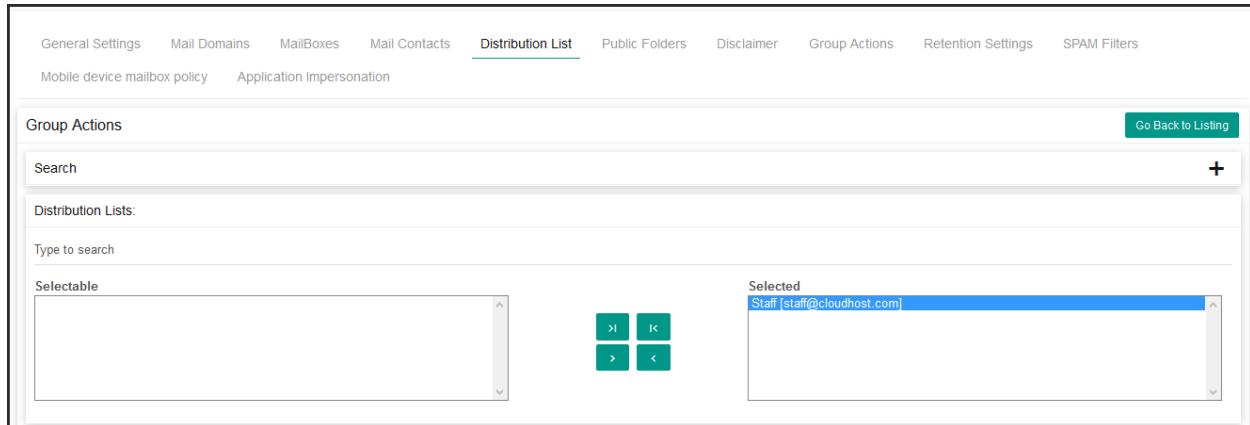

To grant message approval to the mailboxes, a new tab for message approval has been added. If Enable/Disable checkbox on top is unchecked, all below settings are hidden.

The screenshot shows the 'Message Approval' tab selected in the 'Distribution List Settings for staff@cloudhost.com' interface. The 'Message Approval' section is active, and the 'Send On Behalf' tab is also visible. The 'Message Approval' section includes a checkbox labeled 'Messages sent to this group have to be approved by a moderator' which is checked. Below this, there are two sections: '\*Group Moderators:' and '\*Senders who don't require message approval:'. Each section has a search bar labeled 'Type to search' and two dropdown menus: 'Selectable' and 'Selected'. The 'Selectable' dropdowns contain two entries: 'Lucas Hayden - L.hayden@cloudhost.com (Mail)' and 'Lyle Hal - Lyle.Hal@cloudhost.com (Mailbox)'. There are four green arrow buttons (left, right, up, down) between the two dropdowns in each section. At the bottom, there is a 'Select moderation notifications:' section with three radio buttons: 'Notify all senders when their messages aren't approved.' (selected), 'Notify senders in your organization when their messages aren't approved.', and 'Don't notify anyone when a message isn't approved.'. A 'Save' button is located at the bottom left of the form.
