

# Service Management of CRM in MachPanel

## Summary

This article provides a summary on CRM services management i.e. adding domains, managing CRM organizations, and adding \ managing Users etc. in MachPanel.

## Applies To

This article applies to MachPanel all versions.

## Pre-Requisites:

Before you can manage services of CRM you need to Integrate CRM With MachPanel Control Panel. Please review the below KB article:

<http://kb.machsol.com/Knowledgebase/Article/50277>

## Service Management of CRM Hosting:

Hosted CRM activates rich web based interface for the management of hosted CRM service. Using the web interface the provider and the end-user may perform routine management task without the need of going at the CRM server or active directory.

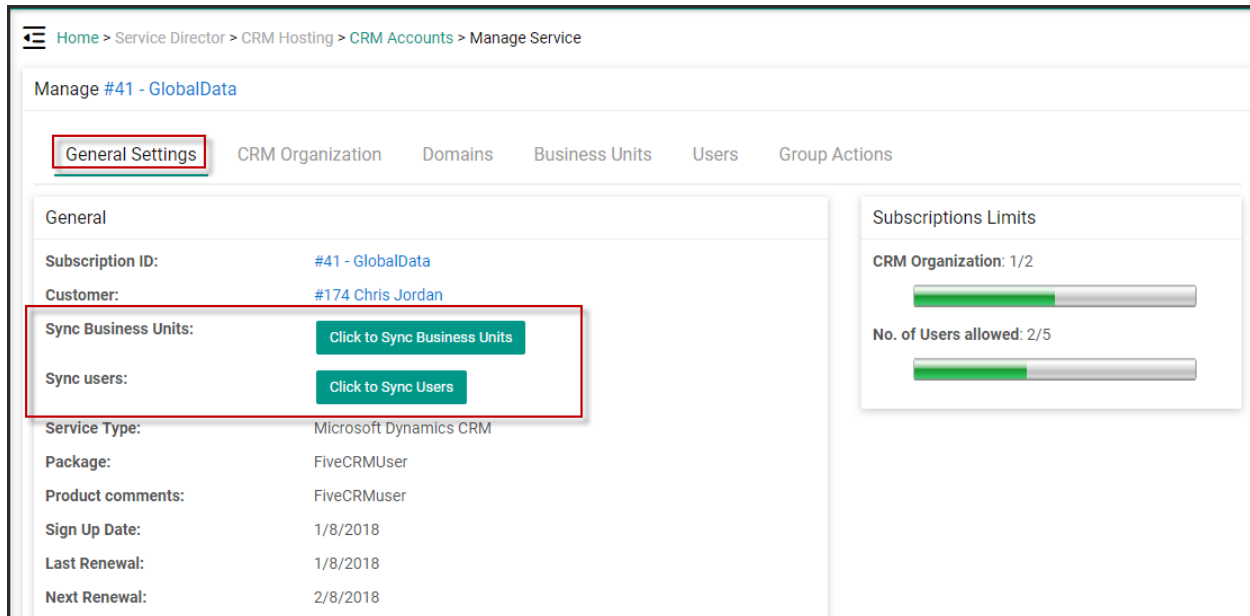

In order to manage services of the CRM accounts, navigate to the path: **Home >> Service Director >> CRM Hosting >> CRM Accounts**

Click on **Service Management** link in front of the CRM account for which you want to manage CRM Services.

## Domains:

You can view and add new domains under the **Domains** tab.

The screenshot shows the 'Manage #41 - GlobalData' page with the 'Domains' tab selected. The breadcrumb trail is 'Home > Service Director > CRM Hosting > CRM Accounts > Manage Service'. The navigation tabs are 'General Settings', 'CRM Organization', 'Domains', 'Business Units', 'Users', and 'Group Actions'. A table lists the domain 'globaldata.com' with a 'Default' status of 'Yes' and 'Set default' and 'Delete' buttons. Below the table, it says 'Displaying: 1- 1 of 1' and 'Displaying per page: 20 Change'. At the bottom, there is a form to 'Add New Domain' with the input field containing 'domain.com', a 'Set default' checkbox, and a 'Save' button.

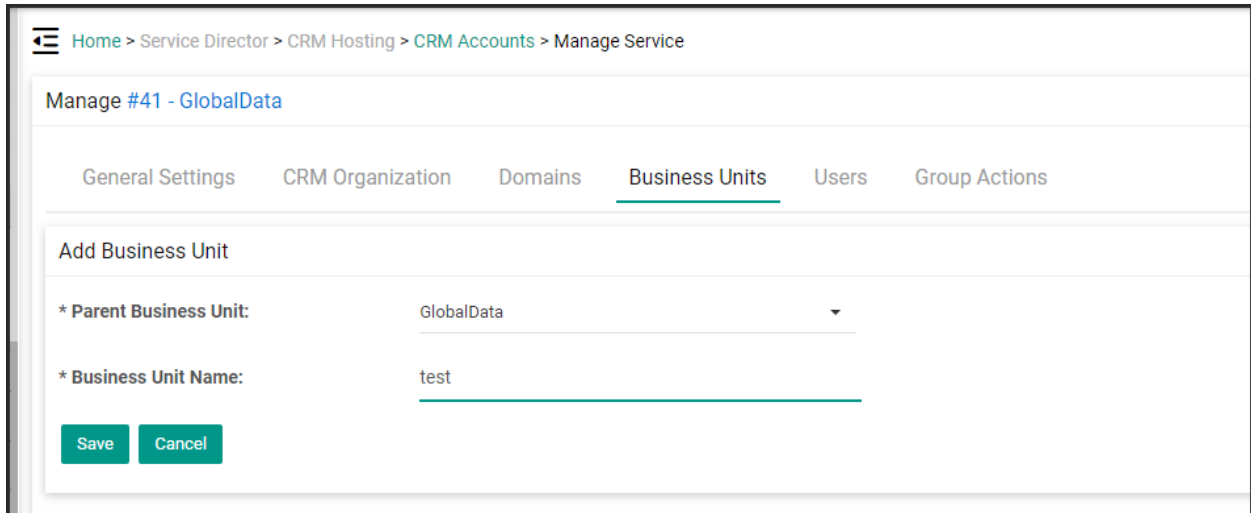

## Business Units:

To add a new business unit to CRM click on **Add Business Unit** button under **Business Units** tab as shown in the snapshot below:

The screenshot shows the 'Manage #41 - GlobalData' page with the 'Business Units' tab selected. The breadcrumb trail is 'Home > Service Director > CRM Hosting > CRM Accounts > Manage Service'. The navigation tabs are 'General Settings', 'CRM Organization', 'Domains', 'Business Units', 'Users', and 'Group Actions'. There is a search bar with a '+' icon. Below it, under the 'Operation' section, is an 'Add Business Unit' button with a blue dashed arrow pointing to it. At the bottom, a table shows a business unit 'GlobalData' with a 'Parent Business Unit' of 'Default' and an 'Options' column.
