How to create Service Plan\Packages for Commission Resellers?

In MachPanel, basically there are two levels of *Service Plan Settings* for a Reseller customer.

- **At Provider Level:** The Package(s)/Service Plan(s) for Commission based Reseller(s) is\are defined by Provider while creating Customer Products. Under **Customer Products Listing** tab, there are some additional settings to be made for *Commission based Reseller* at Step One (Basic info).

1. Enable the Package for Commission based Reseller.
2. Define **Commission** for Reseller.
3. Select available commission based resellers for the Service Plan\Package.

Sync sold plan resources: Note: If this checkbox is checked, product name, comments, Edu discount bit, plan resources will be updated in sold subscription resources. Changing plan resources does not auto update entities like Mailbox or Skype4B User settings. Skype4B plan or addon is not updated if it is assigned to user already.

Enabled For Commission Reseller(s):
