## Important Prerequisites

1. MachPanel Control Server 5.1.11
2. MachPanel Remote Server 5.1.11

## Upgrade Instructions

Please follow the steps given below in sequence and execute instructions in the KB articles to complete the update:

1. [Update to Latest MachPanel](#)
2. [Update to Latest MachPanel Remote Server](#)

## Improvements

- **General:**

- A new utility **FindAndRemoveDeletedMailboxes.exe** is introduced, Please review details at following KB article:

<http://kb.machsol.com/Knowledgebase/Article/53465>

**Note on "FindAndRemoveDeletedMailboxes.exe" utility:**

## MachPanel Build v5.1.12 Release Notes (Dec 01, 2014)

All customers are requested to run the above utility to first review and then delete mailboxes. This will ensure that there are no UN-deleted mailboxes on the back end which were deleted through MachPanel but they actually exist on back end exchange.

- Option to enable/disable WHMCS added for Resellers.
- New functions added in API to give Usage Reporting for Exchange, CRM, SharePoint, Lync, Webhosting to provider/reseller.
- Show hide locale, language, default locale, language selection of particular store implemented.
- Localization of invoice template is implemented.
- **Exchange:**
  - Public folder manager mailbox handling changed. Default PFM will be assigned to mailboxes in new organization without any Public Folder, OU PFM will be created and assigned if Public Folder is created in an organization. So now by default OU PFM will not be created.
  - Create Root Public folder with name=domain and create folders inside it for each organization to avoid duplicate name error done. Need to update registry on control server for new implementation to take affect:

## MachPanel Build v5.1.12 Release Notes (Dec 01, 2014)
