

Purchase More link

Summary

This article provide how to enable \ provide purchase more resources.

Applies To

This article applies to MachPanel build version 5.4.10.

"Purchase More" link

New Enhancement is added to allow the MachPanel end user to purchase more resources direct from the management interfaces where the existing resources reach their limit:

Following Resource(s) exceed the Maximum allowed limit. Purchase More.

"Purchase More" link is configurable and providers/resellers can provide external link in a field available under **Personalization** tab in company settings interface.

The screenshot displays the MachPanel management interface. The breadcrumb navigation shows 'Home > System Configuration > Company Profile'. The 'Personalization' tab is selected and highlighted with a red box. The 'Control Panel Settings' section includes fields for 'Control panel name', 'Portal Title', 'Company name', and 'Company website URL'. The 'Other Settings' section at the bottom contains a field for 'Url to purchase more resources when quota limit is reached', which is highlighted with a red box and contains the value 'http://supportpanel.machsol.com'. A note below this field states: 'Note: Three query string variables will be appended when a link for more resources is generated, these will be 1:SvcTypeId, 2:SubsId, 3:CustId. You can use these variables on your provided link.' A 'Save' button is located at the bottom left of the form.

Field	Value
* Control panel name:	MachSol-Support Control Panel
Portal Title:	MachSol-Support Portal
* Company name:	Machsol Support Company
* Company website URL:	https://www.MachPanel.com
Show Logo on Panel Header:	<input type="checkbox"/>
End User Portal Title:	MachSol-Support End User Portal
* Send Application crash report to:	support@Support-Control-Panel.com
Url to purchase more resources when quota limit is reached:	http://supportpanel.machsol.com
Send email checkbox checked:	<input type="checkbox"/>

Purchase More link

- If the configurable field is left blank, MachPanel will redirect to the offline order form and if any associated Add-on is available for sale, it will get selected to be sold.
- The functionality is available on both client and provider/reseller side with extra permission for client to be able to purchase via offline order form i.e. Reseller's/Customer's should be allowed to purchase more resources via "Access Templates".

---Search in menu---

Home > Customer Manager > Customers

Customers List **Access Template** Contacts

*Access Template Name: Default Client Template
