

Dial Plan and Conference Dial-In handling in Skype4B (Lync) Account

Summary

This article provide a summary for on how to Add & Assign Conference Dial-In via Dial Plans.

Applies To

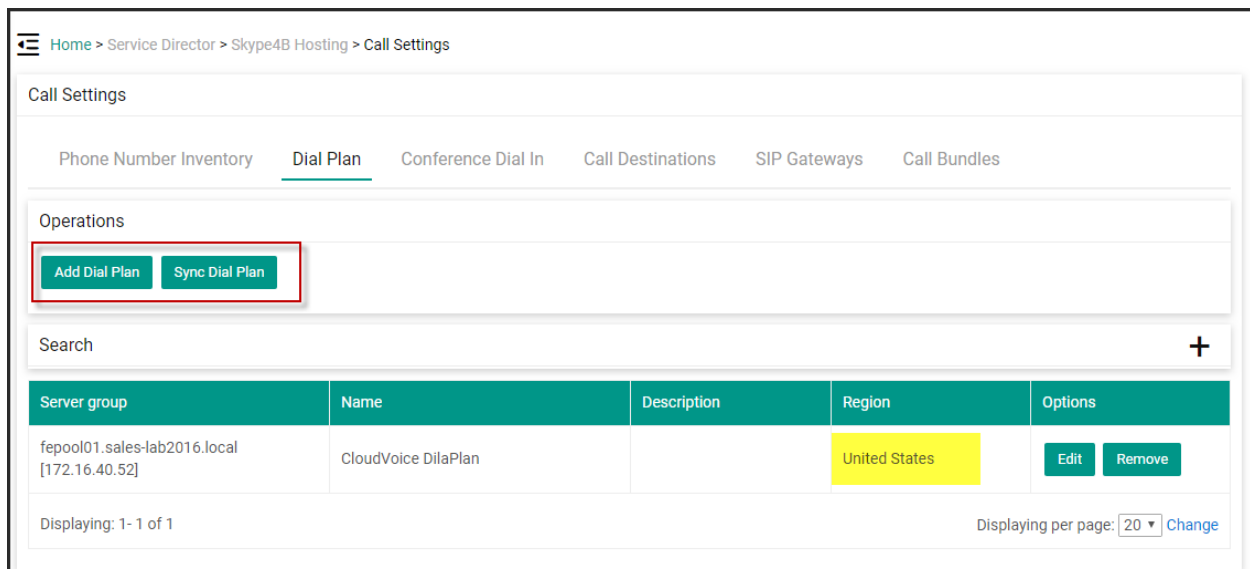

This article applies to MachPanel build v5.4.10 and above.

How it works

Conference Dial-In number depends on the **Dial-Plan**, which on one end is associated with the Conference Dial-In Number and on the other end is associated with the Skype4B user.

How to Add Dial Plans?

- To Add Dial Plans for Skype4B account in MachPanel, navigate to the following path: **Home** » **Service Director** » **Skype4B Hosting** » **Call Settings**.
- Click on **Dial Plan** Tab. Dial-In Conference Region will also be referenced in Conference Dial-In section. Specify other details as desired.

The screenshot shows the MachPanel interface for 'Call Settings'. The breadcrumb path is 'Home > Service Director > Skype4B Hosting > Call Settings'. The 'Dial Plan' tab is selected. In the 'Operations' section, the 'Add Dial Plan' button is highlighted with a red box. Below this is a search bar and a table with one entry.

Server group	Name	Description	Region	Options
fepool01.sales-lab2016.local [172.16.40.52]	CloudVoice DilaPlan		United States	Edit Remove

How to Add Conference Dial-In?

- To Add Conference Dial-In, navigate to the following path: **Home » Service Director » Skype4B Hosting » Call Settings**.
- Click on **Conference Dial In** Tab. Dial-In Conference Region is associated which determines the Dial Plan. Specify other details as desired.

The screenshot shows the 'Call Settings' page in Service Director. The breadcrumb path is 'Home > Service Director > Skype4B Hosting > Call Settings'. The 'Conference Dial In' tab is selected and highlighted with a red box. Below the tabs, there are two buttons: 'Add Dialin Access Number' and 'Sync Dialin Conference Access Numbers', both highlighted with a red box. A search section is visible below with fields for 'Phone' and 'Region', and a 'Search' button. The search results area shows 'No record found.'

The screenshot shows the 'Add Dialin Access Number' form. The breadcrumb path is 'Phone Number Inventory > Dial Plan > Conference Dial In > Call Destinations > SIP Gateways > Call Bundles'. The form fields are as follows:

- Select server:** fepool01.sales-lab2016.local [172.16.40.52]
- * Display Number:** 12345678
- Display name:** (empty)
- *Line URI:** Country Code: (empty) Number: (empty)
- *SIP URI:** SIP: 5467679564 @cloudvoice.net
- *Primary Language:** Select Language
- Secondary Languages (maximum of four):** English (United States)
- * Associated Regions:** United States

At the bottom, there are 'Save' and 'Cancel' buttons.

How to Create Skype4B user and choose Dial Plan?

- Subscribe a Customer to the desired Service Plan, in which you associated your desired Dial Plans and Provision the service from service queue.
- After Successful Provisioning, **Manage** the desired **Account**.
- Click on **Users Tab** and then add new user.
- Choose your desired Dial Plan.
- The Conference Dial-In number which was associated with the dial plan will be used while generating meeting requests for this user.

The screenshot displays a configuration form for a Skype4B user. The form includes several fields with dropdown menus and radio buttons. The 'Dial Plan' and 'Conferencing Policy' fields are highlighted in yellow. The 'Dial Plan' is set to 'CloudVoice Plan' and the 'Conferencing Policy' is set to 'Global'. Other fields include 'Line URI' (set to '+11234567890 (US, N/A, DID)'), 'Private Line' (set to '-- Select --'), 'Linked User' (checkbox), 'Enter Object SID:' (text input), and 'Associate Call Bundle' (set to '-- Select --'). Information icons are present next to several fields.

Line URI:	+11234567890 (US, N/A, DID)	Extension	?
Private Line:	-- Select --	Extension	?
Linked User:	<input type="checkbox"/>	Enter Object SID:	?
Dial Plan:	<input checked="" type="radio"/> CloudVoice Plan		
Voice Policy:	<input checked="" type="radio"/> Global		
Conferencing Policy:	<input checked="" type="radio"/> Global		
Associate Call Bundle:	-- Select --		?
Optional Fields			

Last but not the least, if you have an existing organization for which you want to update Dial Plan, you first have to Update their Service Plan by Performing and Upgrade or Downgrade of Subscription to your desired Service Plan, after which you will be able to see desired options in Dial Plan Section.

Create New Service Plan and Edit older (plan the customer is currently subscribed to):
