Check Enable Temporary URL option, You can create website in IIS or use an existing site which you want to use as temporary URL and give Its ID against *Temporary URL Website ID* and its Name against *Temporary URL Website Name* as shown in snapshot below and click on Save button.

Home » Service Director » Web Hosting » Se	erver Groups			
Server Groups Web Hosting Servers	Services			
Server group	Hostmatic			Server
° <sub>≫</sub> Server Settings				
Provider:		Internet Information Serve	er 10 👻	
* Friendly name:		IIS 10		
* Anonymous user group name:		MachPanelWebUsers		
* Websites physical path:		C:\inetpub		
* Websites data folder name:		www		
* Website log file folder name:		logs		
* Websites database folder name :		Database		
Disable IIS Logging (For Domain(s)):				
Enable Shared SSL:				
Shared SSL website id:		0		
Shared SSL website name:				
Enable Temporary URL:				
Temporary URL Website ID:		12		
Temporary URL Website Name:		Temporary Url		

This will Configure Temporary URL for the customers that will subscribe to the WebHosting.

# Steps to Enable \Disable Temporary URL:

 If you want to "Enable\Disable" Temporary URL once the Domain has been registered then please navigate to the path: Home » Service Director » Web Hosting » Hosting Accounts and click on Manage against the Domain for which you want to enable\disable the Temporary URL.

Home »	Service Director »	Web Hosting » Hosting Accounts					? Help
	Company Name [Own	er] Subsc.ID C	Customer ID Customer Name	User name	Domain Name Status	Company Name	
Filter	MachSol, Inc. [Host	Admin (Provider)]			All	<b>~</b>	Search
Status	<u>Subsc.ID</u> ↓☆	Domain Name ↓↑	Package ↓↑	<u>Customer</u> <u>ID</u> ∜☆	Customer Name ⊕☆	Company Name &☆	Options
$\otimes$	5	webhostingtest.local	Webhosting	<u>#1</u>	Customer Demo	MachPanel Demo	(§) Manage
$\otimes$	3	default.com	Test Product	<u>#1</u>	Customer Demo	MachPanel Demo	() Manage
Displayin	g: 1-3 of	3				Displaying per pa	age: 20 💌 Change

• Now click on **Temporary URL** option. Please review snapshots below for reference:

In order to **Disable** Temporary URL.

**Scenario:** If Customer already has some sites before configuring this option and they need to **Enable** temporary URL on any site afterwards.

Home » Service Director » Web Hosting » Hosting Accounts » Service Management » Temporary URL
Manage Web Site webhostingtest.local
Temporary URL is disabled on this website.
Enable
Go back to service management
