

Sync Active Directory Organization from Backend

Summary

This article provides a summary on how to Sync AD organizations from back-end via MachPanel Control Panel.

Applies To

This article applies to MachPanel v6 and above

Sync Active Directory Organizations from Backend:

- To perform Sync for AD organizations from Machpanel navigate to the following path: **Home >> Service Director >> Active Directory >> Organizations**
- You can select multiple organizations from the listing and "**Sync from Backend**" as shown in yellow highlight.
- The option is also available for **ADSync Enabled** organizations.

The screenshot shows the MachPanel interface for managing Active Directory Organizations. The left sidebar contains a search menu with 'Organizations' highlighted. The main content area displays a table of organizations with columns for Organization Name, Organization Internal name, Users, and Details. A context menu is open over the 'abc' organization, showing the 'Sync from backend' option highlighted in yellow. The 'ADSync Enabled' status is also highlighted as 'Yes'.

Organization Name	Organization Internal name	Users	Details
abc	abc	121	Active Directory Domain: ess-lab2019.local ADSync Enabled: Yes ADSync Template: Default Template Subscriptions: Yes Customer: #19 - Lukas Berglas

- The action will be added to Group Actions\jobs.

contoso: Operation was successful.Job added successfully. Will be processed in few minutes.

- It will processed in few minutes or you can click on "Run" to complete as shown below:

Sync Active Directory Organization from Backend

The screenshot shows the MachPanel interface for managing Group Actions. The breadcrumb navigation is 'Home > Service Director > General > Group Actions'. The main menu includes 'Group Actions', 'CSP Group Jobs', and 'Group Jobs Settings'. A search bar is present, and there is a 'Reset Tries Count' button. Below this is a table with the following data:

Status	Command	Date Entered ↑	Tries ↑	Last Tried ↑	Customer ↑	Owner ↑	Added by	Option
In Process	Sync from backend [Organization: contoso]	21/03/2018 08:38:08	0	21/03/2018 08:38:08	#1 Customer Demo [MachPanel Demo]	HostAdmin (Provider)	Employee #1 Support Admin	Run
