SECTION 3: COLLECTING DETAILS TO ADD CSP PROFILE

SECTION 4: INSERTING ALL DETAILS INTO MACHPANEL

After inserting all details into MachPanel, please perform test service, and add service plan:

Perform Test service

CSP Profile Configuration

Add CSP Service Plan

Add a new CSP Product from the following path: **Home » Service Plans » Microsoft CSP Products**

The screenshot shows the 'Microsoft CSP Products' page. The breadcrumb trail is 'Home > Service Plans > Microsoft CSP Products'. There are three tabs: 'Reseller Product Listing', 'Customer Product Listing' (which is selected and highlighted with a red box), and 'Add-on Management'. Below the tabs is an 'Operations' section with four buttons: 'Add New Product' (highlighted with a red box), 'Export', 'Import', and 'Update Index'. A search bar is located below the operations section. A table displays one product with the following data:

Status	Index	ID ↑	Products Name ↑	Total Sold	Date Created	Products Type ↑	Options
Enabled	0	34	CSP Product	8	09/05/2017	Office 365 Services	☰

At the bottom of the table, it says 'Displaying: 1- 1 of 1' and 'Displaying per page: 80 Change'. There is also an 'Update Index' button at the bottom left of the page.

Choose correct Microsoft 365 Partner Profile.

The screenshot shows the 'Add New Product' form. The breadcrumb trail is 'Home > Service Plans > Microsoft CSP Products >'. The 'Basic Info' tab is selected. The form contains the following fields:

- Product type:** Microsoft CSP Services
- *Product name:** CSP Test
- Microsoft 365 Partner Profile:** MachSol-US
- Locale:** German (Germany)
- Is active:** Yes
- Defer new subscription and change quantity bill till next invoice:**
- Allow prorate:** Yes
- Associate Add-on:** Optional
- Associate Domain:** Optional

CSP Profile Configuration

If you want to "Linked with local organizations" & "Handle DNS" Enable both section..

CSP Profile Configuration

Note:

1. Only one locale & country is allowed for single plan, if you want to sell any customer multiple plan you must change the locale & country.
2. You can create profile for different *locale* and *country* and then add it your new service plan. You will be able to sell multiple service plan to same reseller based on locale and country.
