

# MachPanel Build v6.0.38 Release Notes (Jan 23, 2019)

## Contents

1. Important Prerequisites
2. Upgrade Instructions
3. Improvements\New Features
4. Resolved\Fixed Issues
5. Known Issues

### 1. Important Prerequisites

1. MachPanel Control Server 6.0.37 or earlier
2. MachPanel Remote Server 6.0.37 or earlier

NOTE: **Microsoft .Net Framework 4.5.2** is **mandatory** and must be installed. This is not the same as .Net 4.5 under windows in features. This version of the .NET Framework runs side-by-side with the .NETFramework 3.5 SP1 and earlier versions, but performs an in-place update for the .NET Framework 4, .NET Framework 4.5 and .NET Framework 4.5.1.

Please download and install from link below:

<https://www.microsoft.com/en-us/download/details.aspx?id=42643>

### 2. Upgrade Instructions

Please follow the steps given below in sequence and execute instructions in the KB articles to complete the update:

1. [Update to Latest MachPanel](#)
2. [Update to Latest MachPanel Remote Server](#)

### 3. New Feature\Improvements

- **General (Active Directory, Billing, API, ADSync)**
  - Added Saskatchewan in Canadian State list.

## MachPanel Build v6.0.38 Release Notes (Jan 23, 2019)

- Added additional login for Contact.
- Added missed SPs in Installer.
  
- **Exchange**
  - Added support to add "Sync Database from backend" Job for Exchange Organization in Workflow.  
<http://kb.machsol.com/Knowledgebase/Article/55590>
  - Added support to allow client to add Sync database from backend job for Exchange based on Access Permission.
  - Add database in Exchange module can add database in any Exchange server without remote server module being installed on that server.
  - Bulk Linked mailbox updated, now supports creation of mailbox in client AD.
  - Enhanced Linked mailbox to allow creation of ADUser on client AD from control panel.
  - Special characters like Ä, Ö, Ü handled in mailbox alias creation.
  
- **CSP**
  - Updated Defer bill handling for O365 for import case.
  - Updated O365 module to use WebAppId and Secret instead of using UserName and Password for API calls for new Microsoft security requirements.
  
- **VPS**
  - VM Import to allow Linux as option.

### 4. Resolved\Issues Fixed

- **General (Active Directory, Billing, API, ADSync)**

## MachPanel Build v6.0.38 Release Notes (Jan 23, 2019)
