

Integration of PayStack in MachPanel

Summary

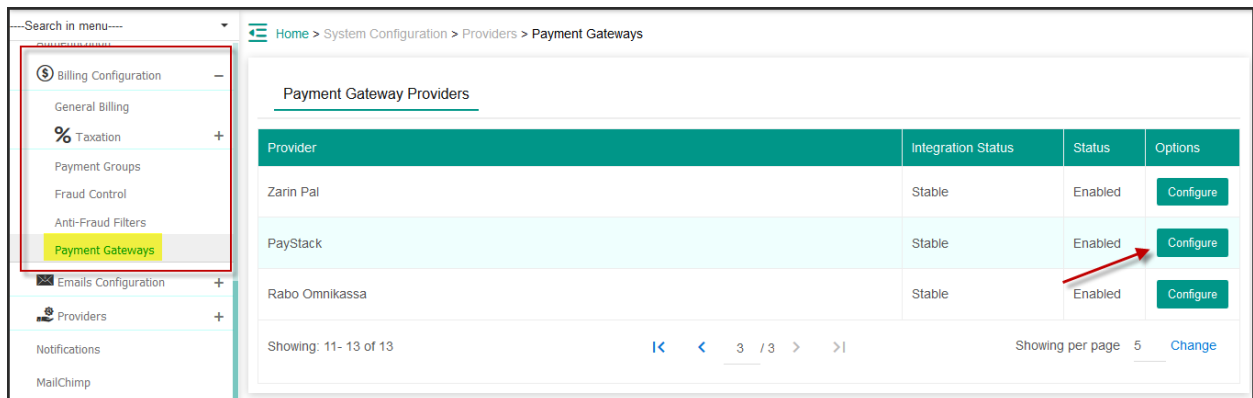

This article provide detail how to integrate payment gateway "PayStack" in MachPanel.

Applies To

This article applies to MachPanel build 6.0 and above.

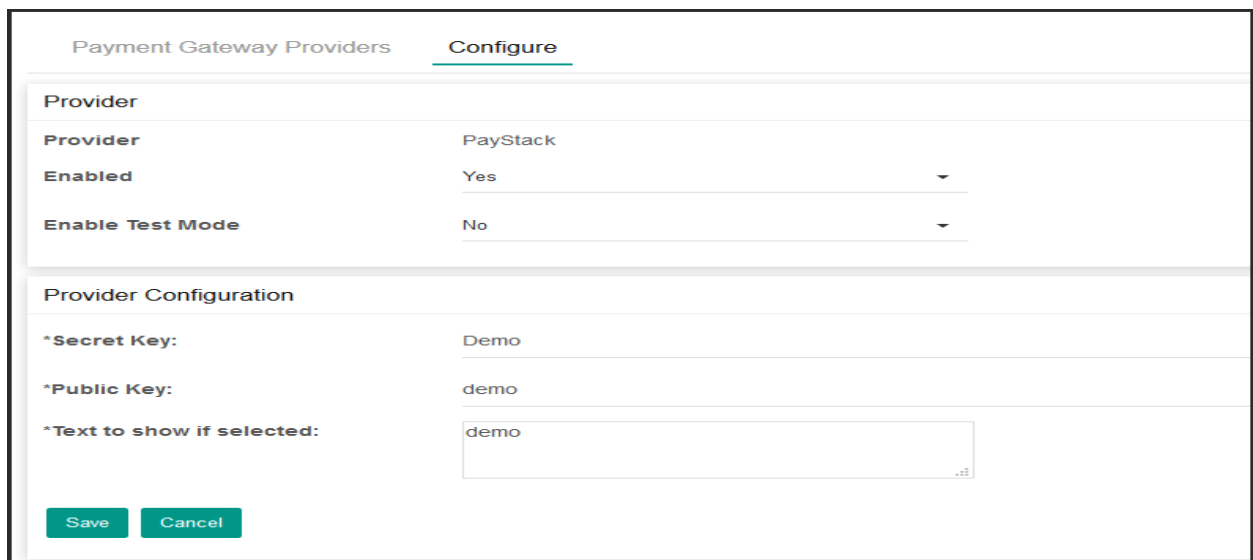

Configuration of "PayStack":

- To configure **PayStack** as your payment gateway navigate to the following path: **Home » System Configurations » Providers » Payment Gateways**.
- Click on the **Configure** link and follow the instructions below:

The screenshot shows the MachPanel interface. On the left, a sidebar menu is visible with a red box highlighting the 'Payment Gateways' option under 'Billing Configuration'. The main content area shows the breadcrumb path: Home > System Configuration > Providers > Payment Gateways. Below this, a table titled 'Payment Gateway Providers' lists three providers: Zarin Pal, PayStack, and Rabo Omnikassa. The PayStack row is highlighted in light blue, and a red arrow points to its 'Configure' button. The table has columns for Provider, Integration Status, Status, and Options. At the bottom, there is a pagination bar showing 'Showing: 11- 13 of 13' and a 'Showing per page' dropdown set to 5.

Provider	Integration Status	Status	Options
Zarin Pal	Stable	Enabled	Configure
PayStack	Stable	Enabled	Configure
Rabo Omnikassa	Stable	Enabled	Configure

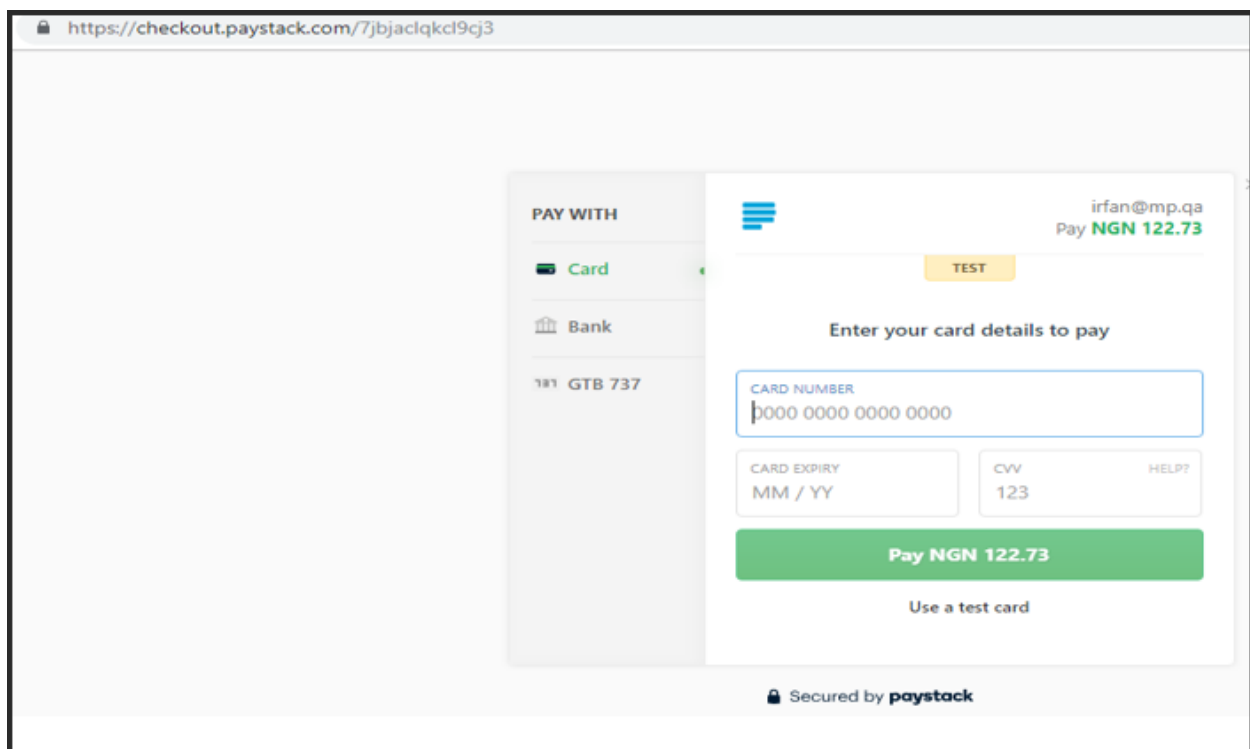

The screenshot shows the 'Configure' form for PayStack. The form is titled 'Payment Gateway Providers' and 'Configure'. It has two main sections: 'Provider' and 'Provider Configuration'. The 'Provider' section includes fields for 'Provider' (PayStack), 'Enabled' (Yes), and 'Enable Test Mode' (No). The 'Provider Configuration' section includes fields for '*Secret Key:' (Demo), '*Public Key:' (demo), and '*Text to show if selected:' (demo). At the bottom, there are 'Save' and 'Cancel' buttons.

Provider	
Provider	PayStack
Enabled	Yes
Enable Test Mode	No

Provider Configuration	
*Secret Key:	Demo
*Public Key:	demo
*Text to show if selected:	demo

Integration of PayStack in MachPanel

1. Provider: Shows the name of provider you are configuring. Not editable.
 2. Enabled: Select NO only if you want to disable the payment gateway. This will prevent system from charging bills through this gateway.
 3. Enable Test mode: Enable the option for testing mode.
 4. Secret key: Provide the Secret key.
 5. Public key: Provide the Public key for configuration.
 6. Text to show if selected: Type necessary text.
- Customer will login into their panel and go to **Pay Bills** interface. By clicking on **Make payment** button customer will be redirected to PayStack interfaces:

- Customer will be automatically redirected back to **Pay bills** interface of MachPanel after interaction with payment gateway.

Adding Payment Group

- After Configuring PayStack, you have to Integrate it in Payment Groups from the following path: Home » System Configuration » Billing Configuration » Payment Groups

Integration of PayStack in MachPanel

- Click Save button
