## Error explanation

Serialization error occurs due to large amount of data (as found in inspect element) and nothing is shown on dashboard as shown below.

No details on Dashboard due to large amount of data

### Solution

Navigate to **C:\Program Files\MachSol\MachPanel Control Server** and edit the file **web.config**

Replace: `<jsonSerialization maxJsonLength="500">`

With: `<jsonSerialization maxJsonLength="2147483644">`

**Replace:**

```
<!-- Uncomment this line to customize maxJsonLength and add a custom converter -->
<!--
<jsonSerialization maxJsonLength="500">
<converters>
<add name="ConvertMe" type="Acme.SubAcme.ConvertMeTypeConverter"/>
</converters>
</jsonSerialization>
-->
<!-- Uncomment this line to enable the authentication service. Include requireSSL="true" if appropriate. -->
```

**With:**

```
<!-- Uncomment this line to customize maxJsonLength and add a custom converter -->

<jsonSerialization maxJsonLength="2147483644">
<!-- <converters>
<add name="ConvertMe" type="Acme.SubAcme.ConvertMeTypeConverter"/>
</converters> -->
</jsonSerialization>

<!-- Uncomment this line to enable the authentication service. Include requireSSL="true" if appropriate. -->
```
