

# Update MachPanel REST API (Updated 8 September 2025) for MachPanel Build 8.0.50

## Summary

This article guides how to update MachPanel REST API

## Prerequisites

MachPanel REST API is configured already ([How to configure?](#))

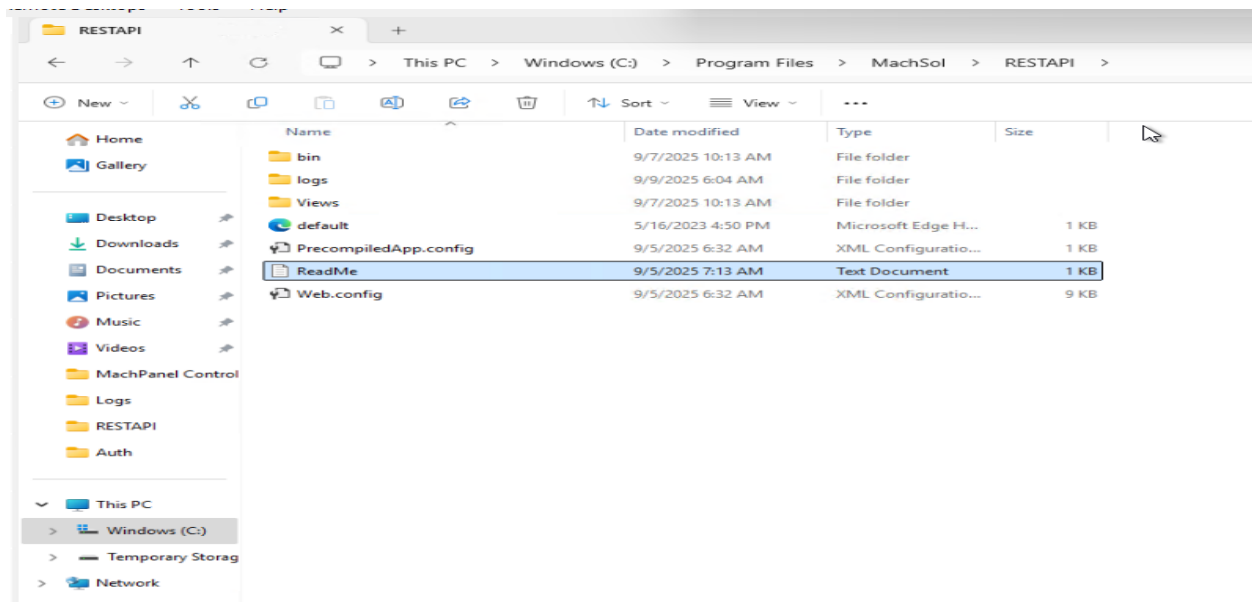

## Important Note:

Update MachPanel REST API (Updated 08 September 2025) for build version 8.0.50

If REST API is installed by MachPanel installer under **C:/Program Files/MachSol/RESTAPI** and it is operational in your environment, then auto update will update RESTAPI files as well. Manual update is needed when RESTAPI is installed on other than default location.

## Update process

Please download Latest **RESTAPI.zip** from below link, unzip, and replace the existing files with these updated files

## Update MachPanel REST API (Updated 8 September 2025) for MachPanel Build 8.0.50

**Note:** If you downloaded and configured MachPanel REST API After September 9th, 2025, then this update is already included.
