

# Adding Custom Dashboard Tiles

## Summary

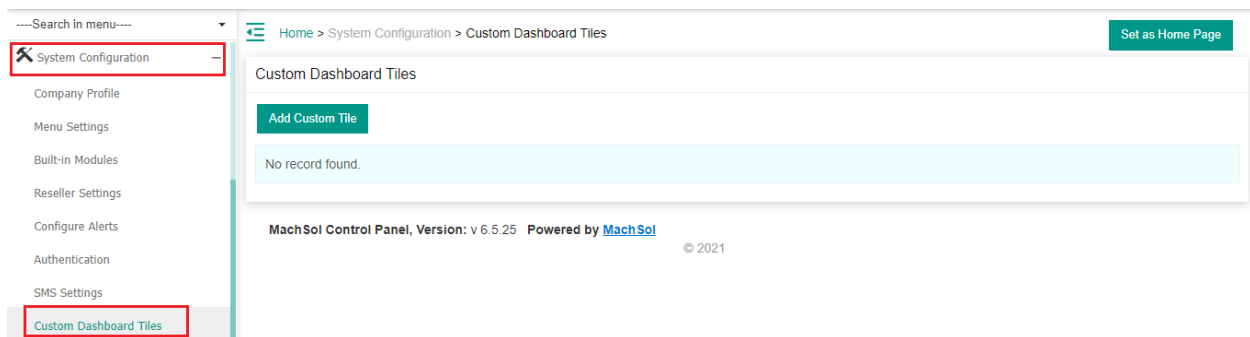

This article provides information on how to add a Custom Tiles on Dashboard.

## Applies to

Applies to MachPanel v6 and onwards for Provider/Resellers only.

## Steps to perform

- Navigate to System Configuration > Custom Dashboard Tiles

- Click Add Custom Tile button to add your custom tile on dashboard (Provider's level interface of Adding/Update Custom Tile).

A screenshot of the 'Add/Update Custom Tile' form within the MachSol Control Panel. The form is titled 'Add/Update Custom Tile' and has a breadcrumb trail 'Home > System Configuration > Custom Dashboard Tiles' at the top. It contains several input fields: a text field for '\*Name:', a text field for 'Icon Path:' with radio buttons for 'Image Url' (selected) and 'Upload Image', and a text field for '\*URL:'. Below these are four checkboxes labeled 'Show To Reseller:', 'Show To Customer:', 'Show To Staff:', and 'Show On 4th level:'. At the bottom of the form are two green buttons: 'Save' and 'Cancel'. A green 'Set as Home Page' button is located in the top right corner of the form area.

## Adding Custom Dashboard Tiles

- Reseller level interface of Add/Update Custom Tile, a Reseller can also add/update customer tile for his Customer/staff/4th Level AD User.

Add/Update Custom Tile

\*Name:

Icon Path:

☒ Image Url ☐ Upload Image

\*URL:

Show To Customer:

☐

Show To Staff:

☐

Show On 4th level:

☐

Save

Cancel

- Give name, Icon Path (URL or Upload Image), give URL of MachPanel Menu where you want to navigate (When this Tile is clicked) and also you can tick the checkbox to show this tile on **Reseller, Customer, Staff** and **4th Level AD user**

**As an example Custom Dashboard Tile for Exchange Accounts Interface is added below**

Add/Update Custom Tile
