

# MailChimp Integration in Machpanel

## Summary

This article provides information about how to integrate a MailChimp account in Machpanel.

## Pre-Requisite

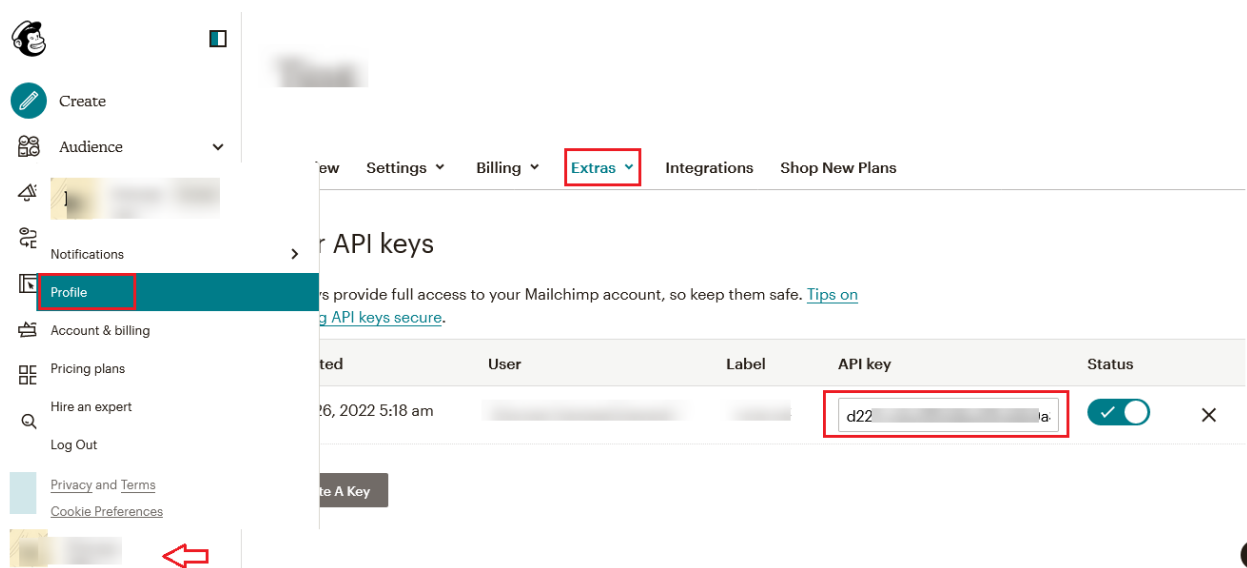

You must have **MailChimp account** and **Working Machpanel**

## MailChimp

MailChimp is an email marketing platform that provides tools for creating, managing, and analyzing email campaigns. It allows businesses to design and send email newsletters, automate marketing processes, and track the performance of their email campaigns.

Integrating MailChimp with hosting services allows providers to leverage email marketing as a powerful tool for customer communication, engagement, and business promotion. It enhances the overall customer experience, facilitates targeted marketing efforts, and provides valuable insights through analytics and reporting.

- Login to your MailChimp account. Navigate to **Account > Profile > Extras**

## MailChimp Integration in Machpanel

- Copy API Key

### Configuration in Machpanel

- Login to Machpanel, Navigate to **Home > System Configuration > MailChimp** and specify Copied API Key

The screenshot shows the Machpanel interface. On the left is a sidebar menu with 'MailChimp' highlighted. The main content area is titled 'MailChimp Setting' and contains the following fields:

- Enabled:**
- \*API Uri:**
- \*API Key:**

Below the fields is a hint: "Hint: API Key: Log in to mailchimp.com, go to Account, go to Extras, click on API Keys and create a Key". A 'Save' button is located at the bottom left of the form. A breadcrumb trail at the top reads 'Home > System Configuration > MailChimp' and a 'Set as Home Page' button is at the top right.

- Click **Save**, MailChimp Listing Tab will appear.

The screenshot shows the Machpanel interface after saving the settings. A green notification banner at the top says 'Record successfully updated.'. The breadcrumb trail is 'Home > System Configuration > MailChimp'. The main content area has two tabs: 'MailChimp Setting' and 'MailChimp Listing'. The 'MailChimp Listing' tab is active and shows the same configuration fields as the previous screenshot, but with the API Key field highlighted by a red box. The 'Save' button is at the bottom left.

## MailChimp Integration in Machpanel

- Which contains all the list you have on your profile.

The screenshot shows the 'MailChimp Listing' page in Machpanel. The breadcrumb navigation is 'Home > System Configuration > MailChimp'. There is a 'Set as Home Page' button in the top right. The page has two tabs: 'MailChimp Setting' and 'MailChimp Listing', with the latter being active. Below the tabs is a table with the following data:

Name	#	Subscribers	Opens	Clicks	Alias	Used for
MailChimp-MP		50240	0%	0%		Both

Below the table is a 'Save' button.

- Click on Hyperlinked Name like "MailChimp-MP" Subscribers/Contacts will get listed.

The screenshot shows the 'List Detail' page for the 'MailChimp-Mp' list. The breadcrumb navigation is 'Home > System Configuration > MailChimp'. There is a 'Set as Home Page' button in the top right. The page has three tabs: 'MailChimp Setting', 'MailChimp Listing', and 'List Detail', with the latter being active. The page displays the following information:

Mailing List: MailChimp-Mp  
Alias: Both  
Used for: Both
