

MachSync License Activation

Summary

This article provides step by step guide on how to Activate License for MachSync Utility.

Applies To

This article applies to MachSync v1.0

Pre-Requisites

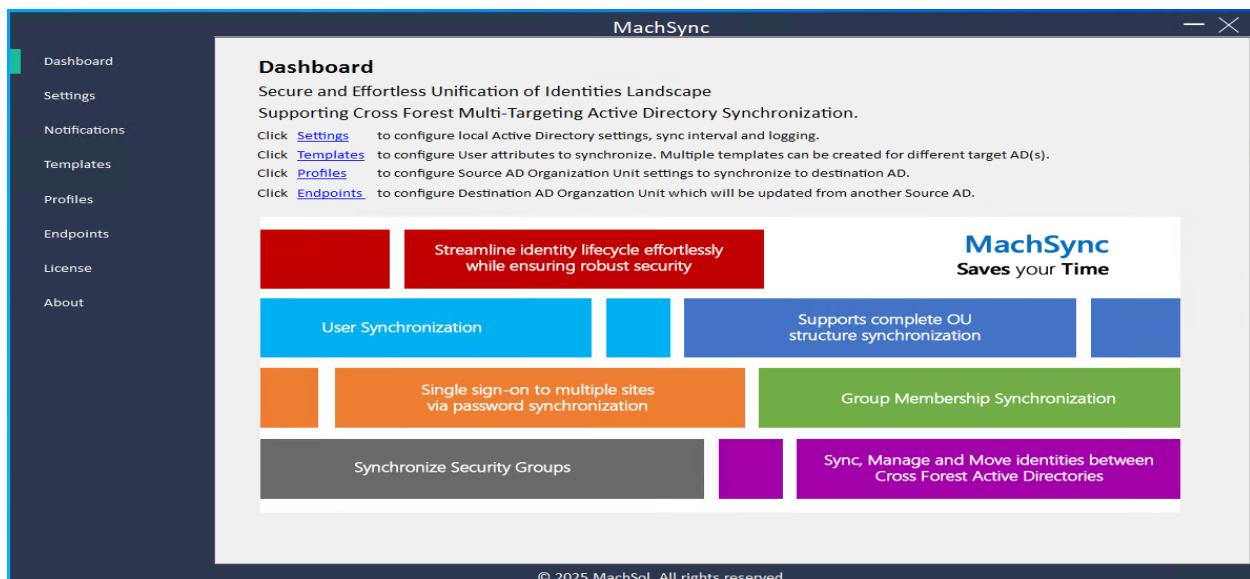

Before you can activate MachSync License, you need to download and install MachSync v1.0. Please review below KB:

MachSync Installation Guide

MachSync License Activation

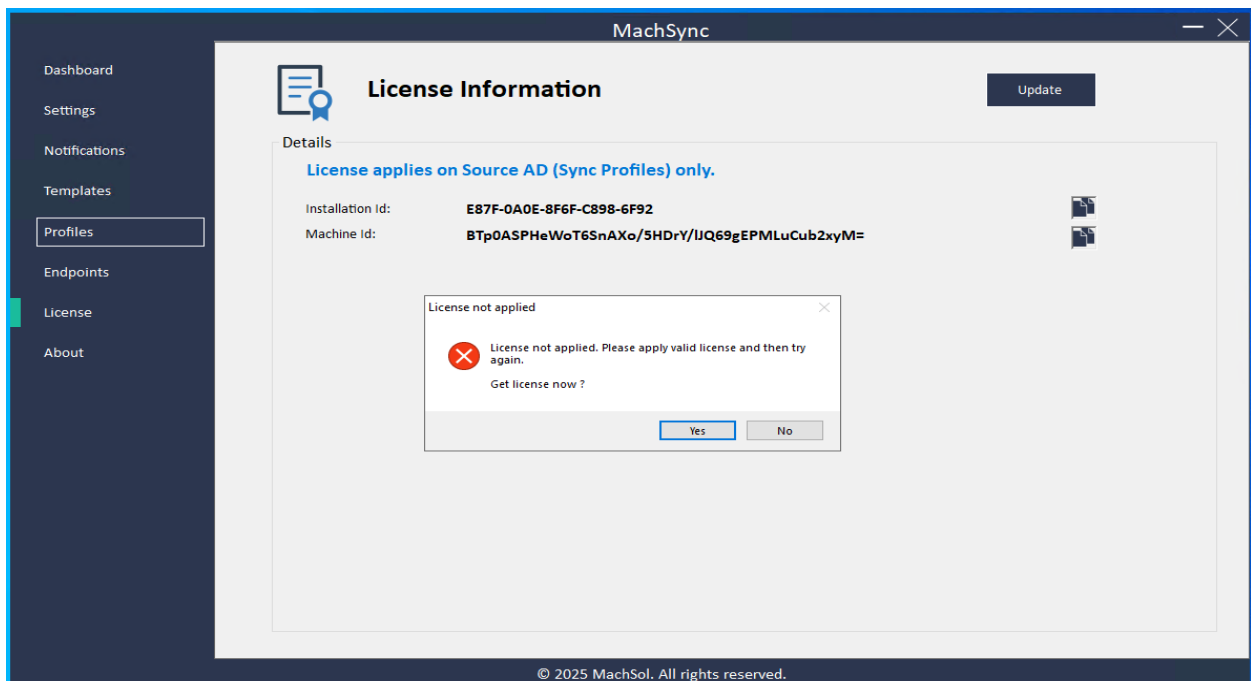

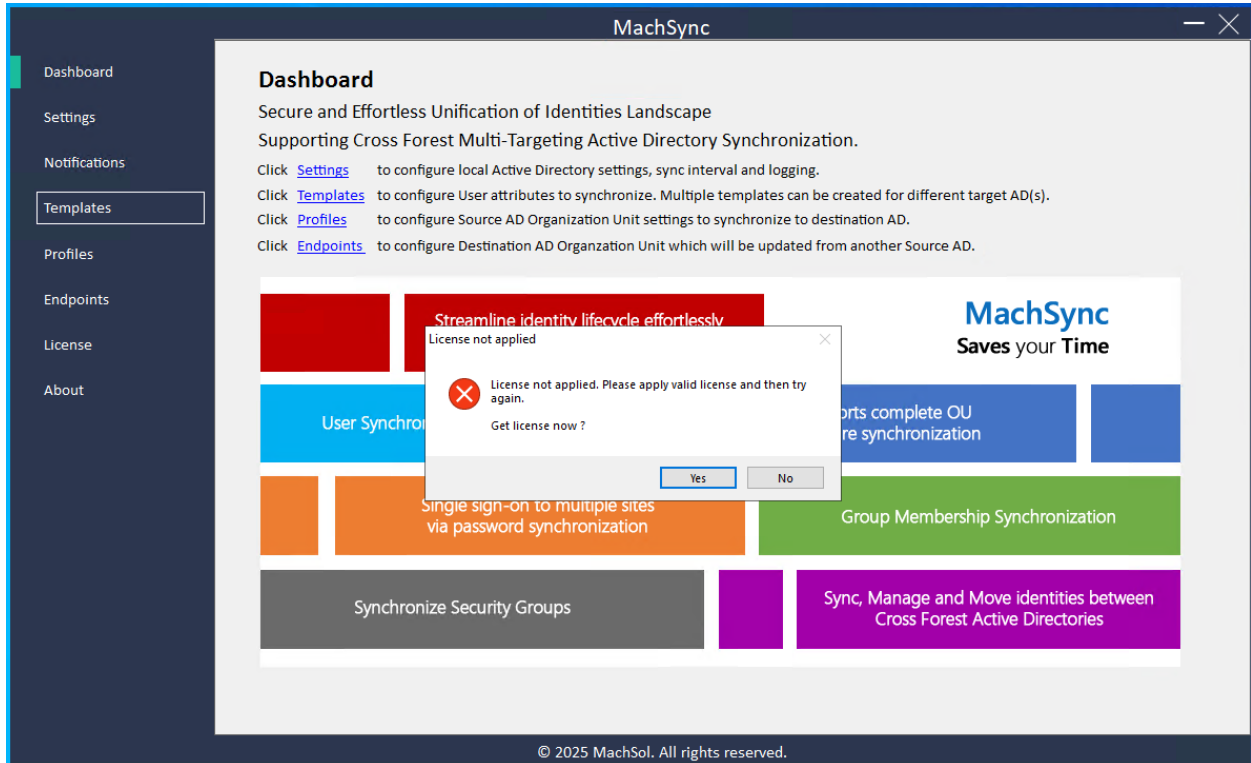

Before License Activation

Once MachSync is installed then default dashboard page will appear.

MachSync License Activation

You will not be allowed to navigate to Templates and Profiles sections.

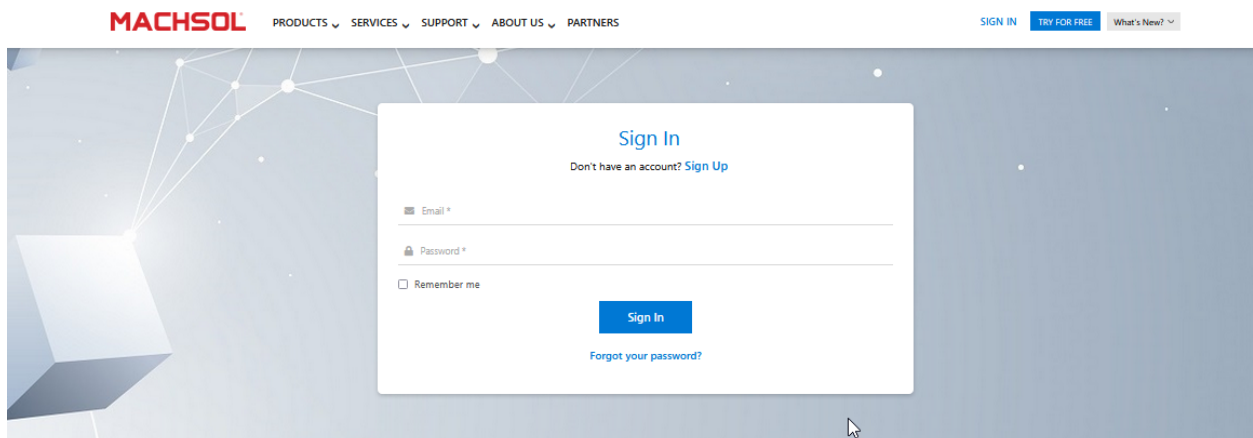

MachSync License Activation

Steps to activate license

You can either purchase license or request a trial.

If you click on "YES" new page will open in browser with [MachSol Website](#) and allow you to go for "Try Now" or "Buy Now" options.

If you click on "Try Now", you will be taken to Sign-In page where you have to sing-in using your registered account (Email/Password and PIN):

Support
Got a problem with your MachPanel Deployment? we are here to help.
Email us at support@machsol.com or visit <https://support.machsol.com/>

You will be taken to License Generation Page to get a trial license:

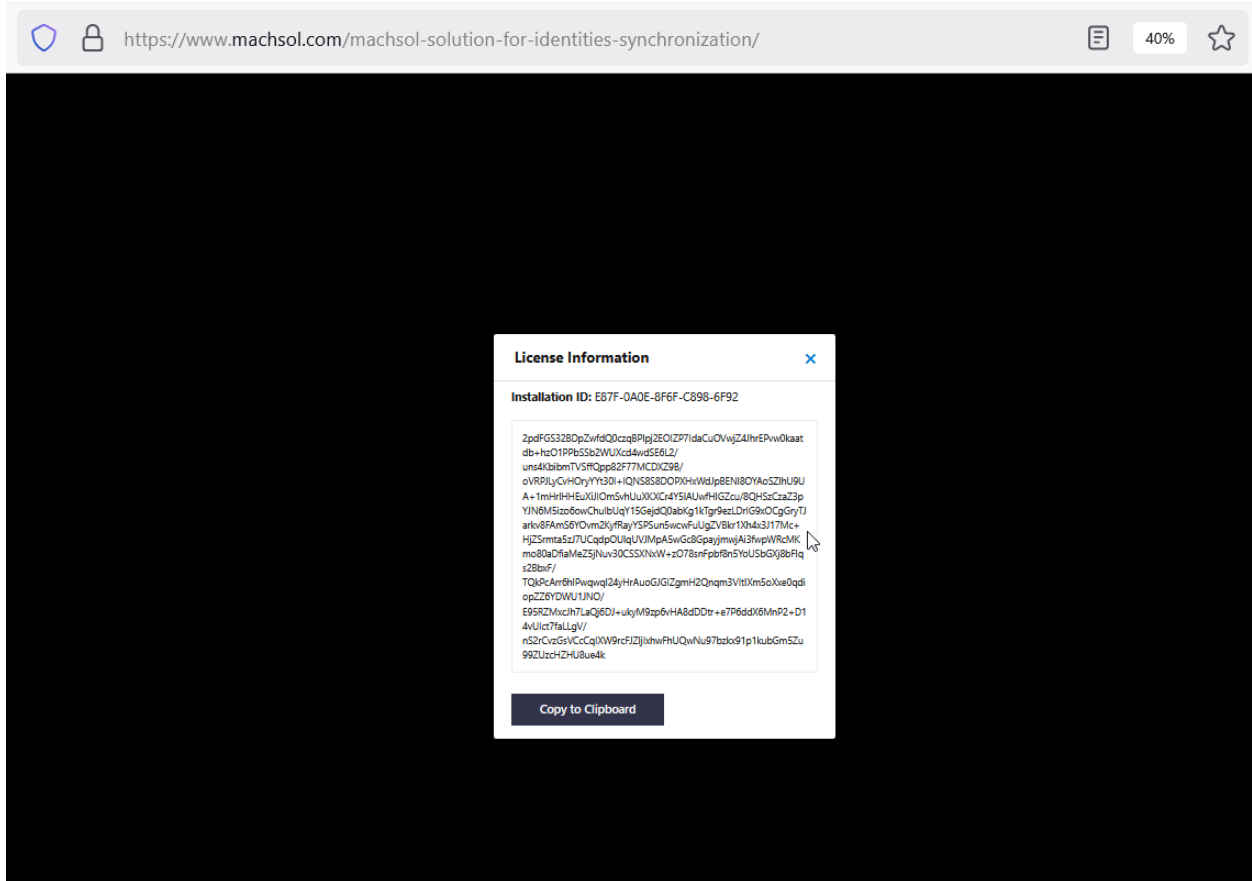

MachSync License Activation

Copy the license information "Installation ID" and "Machine ID" from MachSync License page:

MachSync License Activation

This will generate your Trial License Key:

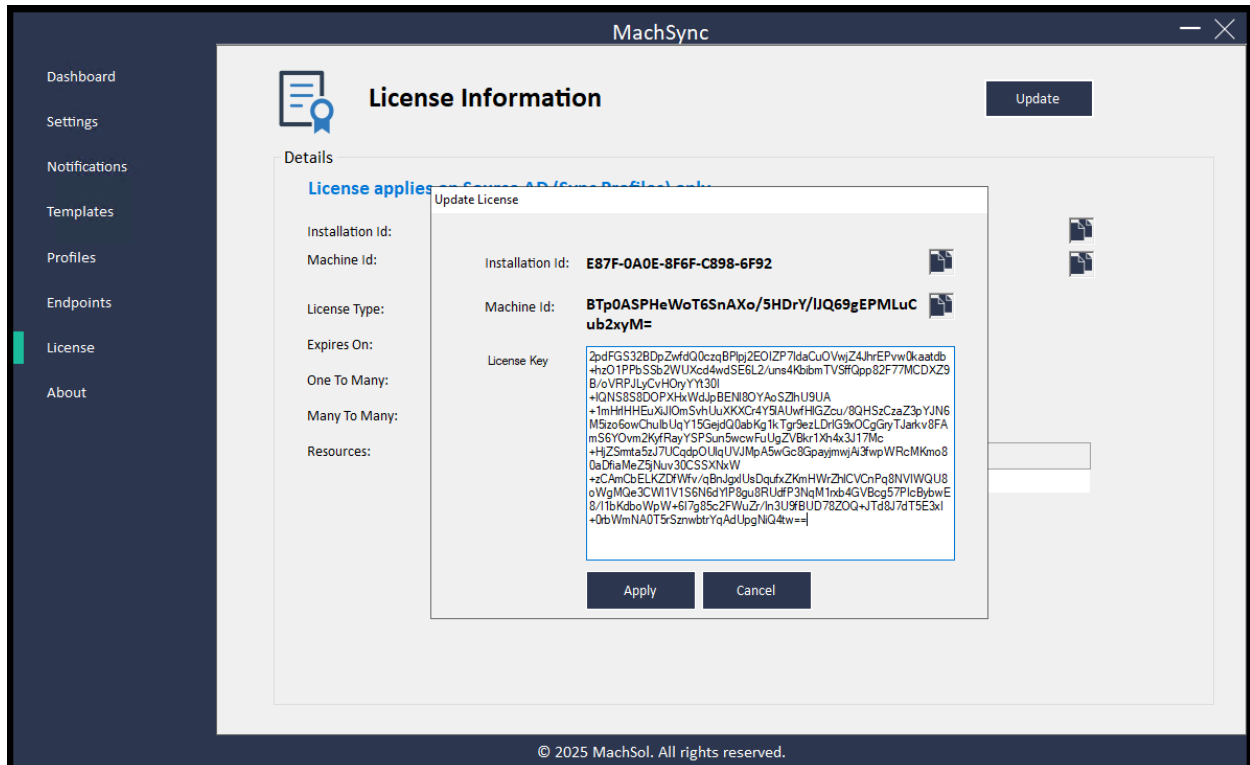

Press the "Copy to Clipboard" button and the License key will get copied:

MachSync License Activation

On the MachSync utility, under License section, click the "Update" button and paste the License Key:

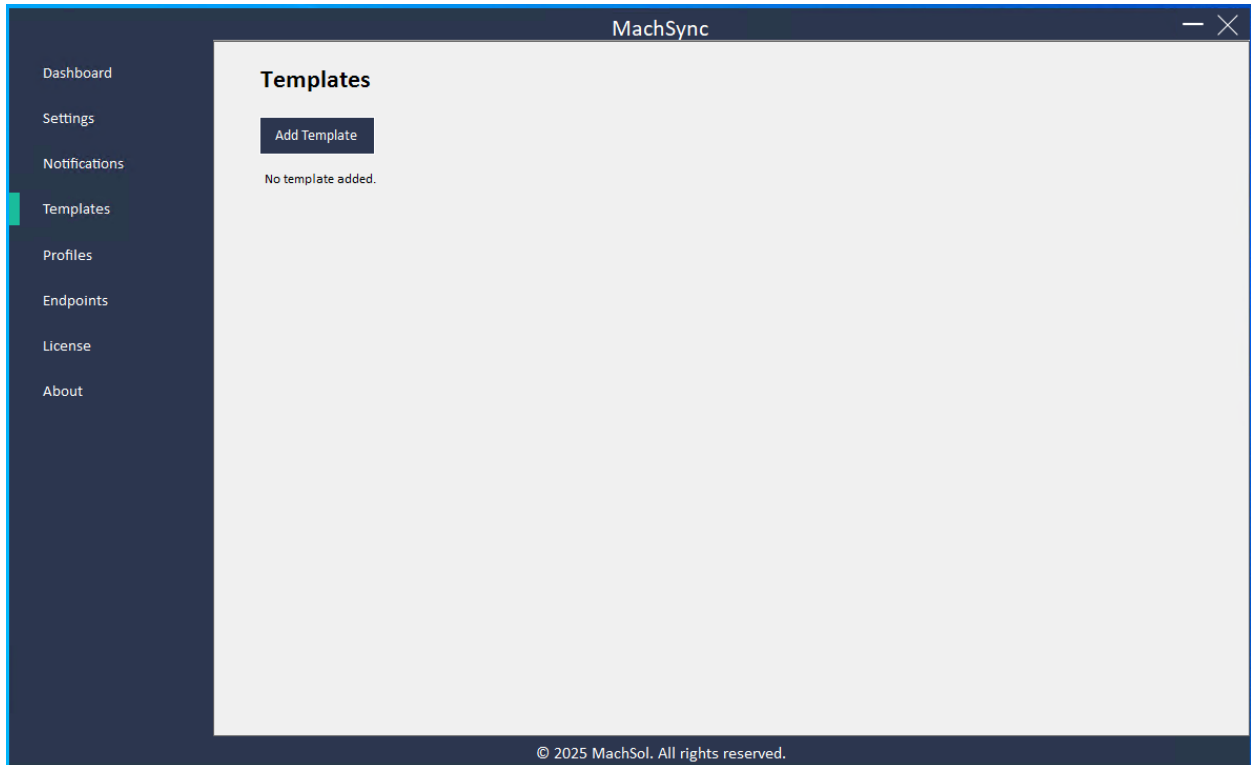

Click on Apply and your Trial License gets applied:

MachSync License Activation

Now you can continue and access the blocked items:

Configuration

The next step after the installation and license activation is the configuration of MachSync using below KB article:
