After the below windows update

<https://support.microsoft.com/en-us/topic/december-9-2025-kb5071544-os-build-17763-8146-630aa62e->

Below issue might come while granting consent for CSP tenant in MachPanel.

### HTTP Error 404.15 - Not Found

The request filtering module is configured to deny a request where the query string is too long.

#### Most likely causes:

- Request filtering is configured on the Web server to deny the request because the query string is too long.

#### Things you can try:

- Verify the configuration/system.webServer/security/requestFiltering/requestLimits@maxQueryString setting in the applicationhost.config or web.config file.

#### Detailed Error Information:

#### More Information:

This is a security feature. Do not change this feature unless the scope of the change is fully understood. You can configure the IIS server to reject requests whose query string is greater than a specified value. If the request's query string is greater than the configured value, this error is returned. If the allowed length of the query string needs to be increased, modify the configuration/system.webServer/security/requestFiltering/requestLimits@maxQueryString setting. ## CSP Grant Consent Error

### Resolution

To fix the issue below steps should be followed:

- Go to the installation directory of MachPanel Control Server (C:\Program Files\MachSol\MachPanel Control Server).
- Open Web.Config in notepad.
- Find <httpRuntime>
- Replace it with below:
  - o <httpRuntime targetFramework="4.8" executionTimeout="1800" maxRequestLength="102400" maxQueryStringLength="16384" maxUrlLength="16384" />
- Apply changes and restart IIS.
